

## August Classes & More

### Zentangles 101 Class

**We welcome Terry Christens is our Guest teacher for Zentangles.**

When you create a Zentangle, you create a unique piece of art,  
or deliberately create a mood, a focus, a state of mind.

Creating a Zentangle is an easy-to-understand process of simple deliberate strokes which build on each other in beautiful, mesmerizing & surprising ways. In this class you will learn the steps to create 3 Zentangle patterns & how to begin to see shapes in the world around you to create your own patterns.

Each student will receive high quality watercolor paper, fine point art marker and a pencil.
