Authentique Paper

Authentique is a relatively new company and here is their story from their blog:

"There is something compelling about being genuine.

We love the genuineness of those who enjoy creating beautiful things and celebrating family memories. Our products are designed to enhance the authentic side in each of us, hence [Authentique Paper](#).

We believe...

- Preserving family memories is vital to our happiness.
- Attributes are greater than accomplishments.
- Everyone's path is a little bit different.
- Most people have great respect for quality.
- A child's best is good enough and they love compliments.
- An event isn't as important as enjoying it.

SG&M is proud to carry several of their collections, with the newest one: **Gathering**:
Wonderful colors and words for Fall, Family time and more...

You will also find a paper pack of the **Splendid** Line
